

I am Sorry Mummy Papa...

I am really very fed up with the life now there are just problems & issues only no peace only. I need peace I tried every possible way to get rid from this so called depression but I can't overcome it. Went to the doctor also still my mental health is not improving.

My only dream was UPSC in 1st attempt from then only I am being so unstable all know it. And you both & everyone supported me but I can't heal until I help myself and I am very helpless now so just want to go happily now and be in peace.

I enjoyed a lot in Kisan Aunty's home. Thanks to you aunty & uncle you have been also there for me every-time. But I think I don't deserve it and can't fulfill my dream too. It's being very hectic for me now to handle life's problem, these is it now. And, problems are never ending phase of life. I am not that strong to face them. I am going with my wish and happily. you all also be happy. And, donate my organs to needy ones at least I will do social work by going and give life to who wants to live. Sorry & Thanks to everyone who ever supported me.

Take care.
Love you.

I know this will become breaking news so I request govt. to please allow euthanasia in our country. I know suicide is not the solution for any problem but there are many who wants to go on quick life by their choice. And, also please reduce the scams of govt exams and generate employment. So many youths are struggling for jobs. It was my life & I have right to do anything so no need of making any fuss out of it.

Pg and hostel rents should also be decrease these peoples are just looting money from the students, not every student can afford it.

And, please everyone don't stay much because everyone has to die one day its not a big deal. No one is immortal.
