Dear sir/madam,

It has come to our notice that on 'X' (previously Twitter), a "Grey Tick" Government Handle with identity "@CMODElhi", has now been unauthorisedly changed to "@KejriwalAtWork". The said account is having approximately 9,90,000 followers.

As per established practice, official accounts are not associated with individuals and pass on to successors as and when change takes place.

Since "@CMODElhi" became free after changing it to "@KejriwalAtWork", one user used this ID and opened a parody account. It also appears that previously "@CMODElhi" and now "@KejriwalAtWork" is showing an error – "something went wrong" when tried to see post from this account.

In view of the above, it is requested to 'X' Platform to restore "@CMODElhi" and Password of the same may kindly be sent to the official email ID cmdelhi@nic.in, which is the authorized official ID of Hon'ble Chief Minister, Delhi. This, *inter alia* will ensure that the said Handle / ID is not misused in future and cannot be tampered with.

Further, it is also requested that any 'X' Handle having "@cmodelhi" as its ID, must not be allowed on 'X' without consent of this office. Also at present any other account having "@cmodelhi" must be deactivated immediately.

Office of Chief Minister, Delhi
