To: secy.president@rb.nic.in

Respected Madam,  
DROUPADI MURMU MADAM,  
PRESIDENT OF INDIA

My name is Vishal Agarwal. I am the father of Ketan Agarwal.

I am writing this email with a heart full of pain and hope. I am not writing as a businessman or someone with influence. Main sirf ek baap hoon, jo apne bete ke liye insaaf maang raha hai.

My son Ketan was brutally murdered. Since that day, our lives have completely changed. Every morning we wake up with the same pain, and every night we sleep with the same question—When will Ketan get justice?

The pain did not end there. Within just 20 days of losing Ketan, I also lost my own father. He loved his grandson more than anything. He could not bear the shock and grief of Ketan's death. His blood pressure dropped, and eventually his heart stopped working. In just 20 days, I lost both my son and my father. Our family has been shattered.

Sir, we are not asking for any special treatment. Hum bas itna chahte hain ki is case fast track court me chaleke jaldi se jaldi justice mile. The people who did this should receive the strictest punishment under the law. Delay in justice only increases the pain of families like ours.

Ketan cannot come back. But the guilty should not feel that they can escape or delay the consequences of such a cruel crime. A strong punishment will not only give us some peace, but it will also send a message that innocent lives matter and that such crimes will never be tolerated.

With folded hands, I request you to please look into this matter personally and help ensure that justice is delivered as soon as possible. Humari family ne bahut kuch kho diya hai. Ab sirf ek hi umeed bachi hai—insaaf.

Please don't let my son's case become just another file. Behind this case is a family that has lost everything.

Thank you for taking the time to read my email.

Sincerely,

Vishal Agarwal  
Father of Ketan Agarwal
